Funding for this bill in the amount of \$780,000 is included in the Governor's proposed FY12-13 budget.

Assumptions:

- Under current law, domestic assault is punished as a Class A misdemeanor. If the assault intentionally or knowingly causes physical contact with another that a reasonable person would regard as extremely offensive or provocative, the offense is punished as a Class B misdemeanor.

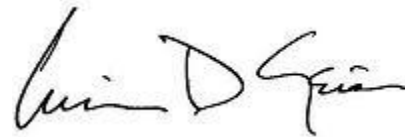

HB 2389 - SB 2251 (CORRECTED)

- According to the Administrative Office of the Courts, there has been an average of 646 convictions of domestic assault in each of the past five years. State court convictions are 10 percent of the total convictions. Total convictions, including general sessions courts, are estimated to be 6,460 per year.
- According to the DAGC, a survey was sent out to each district attorney general. Based on responses by Shelby, Madison, Davidson, and Bradley counties, as well as the 12th Judicial District, it is assumed 61 percent (3,941) of the total Class A or Class B misdemeanors will be first-time offenders. Twenty-five percent (1,615) of the total will be second-time offenders and will serve a mandatory 45-day sentence. There are no data available on actual incarceration costs for local jails. According to the Department of Correction, the average county reimbursement for housing state felons for FY11-12 is \$44.83. Estimate assumes the statewide county cost for county jails is \$44.83 per offender per day. The total additional operating cost to local government for 1,615 offenders serving a mandatory 45-day sentence is \$3,258,020.25 (\$44.83 x 1,615 offenders x 45 days).
- The remaining 904 (6,460 - 3,941 - 1,615) will be third-time or subsequent violations and will serve a mandatory 120-day sentence. The total additional operating cost for county jails is \$4,863,158.40 (\$44.83 x 904 offenders x 120 days).
- Total additional operating cost for county jails is \$8,121,178.65 (\$3,258,020.25 + \$4,863,158.40).
- Based on the Fiscal Review Committee's 2008 study of incarceration costs and fines, collection of fines is negligible. There will not be a significant increase in state or local revenue as a result.
- According to the District Attorneys General Conference (DAGC), any increase in the caseloads of the DAGC can be accommodated within existing resources without an increased appropriation or reduced reversion.

**Article II, Section 24 of the Tennessee Constitution provides that: No law of general application shall impose increased expenditure requirements on cities or counties unless the General Assembly shall provide that the state share in the cost.*
